Aboriginal Person Centred Care

Subacute Care Learning Program

Artwork by Aaron Hayden

This module will:

- Increase cultural knowledge and understanding.
- Improve attitudes, behaviours and actions towards Aboriginal people.
- Positively impact the health and wellbeing of Aboriginal people through improving the skills of health professionals.
- Engage staff with authentic stories of Aboriginal peoples' experience of healthcare providing insight to enhance the development of deep and lasting empathy for Aboriginal people.
- Recognise how healthcare outcomes for Aboriginal people can be improved through greater awareness of Aboriginal culture.
- Challenge pre-conceived perceptions or beliefs about working with and providing health services to Aboriginal people and in particular dismantle the stereo-typing of Aboriginal people.
- Understand how Aboriginal people may view healthcare and the barriers that can prevent
