MELBOURNE

First Nations Medicine and Healing & Antibiotics

- Do you or someone in your household identify as Aboriginal and/or Torres Strait Islander?
- Would you like to join us for an interview?

This research project is led by Wurundjeri Elder Aunty Diane Kerr. We would like to understand more about the community use of First Nations medicine and healing and Western medicine, such as antibiotics.

If you would like to share your views with Aunty Di and her research team, please contact:
