

Help shape the future of kids' lung health!

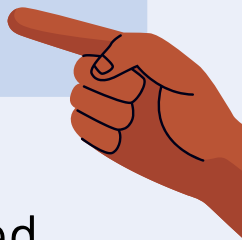

Your voice is vital! Express your interest to join our community conversations in May and help influence the future of kids' lung health research.

Are **you** or **your child** affected by a **lung health condition**?

CLICK
HERE

No preparation is needed, we simply want to hear your insights on where you think research into child lung health can be best directed.

Attendees will receive \$100 and light refreshments.
