**11 March 2020**

**Confirmation of your**  
**registration will be sent**  
**via email**

This training is available free to WA Health employees, including staff from SJOG Midland and Mt Lawley, and Peel and Joondalup Health Campuses. It is suitable for any allied health, nursing, medical and support staff working in rehabilitation, geriatric evaluation and management.

If you work outside WA Health, please contact us at: [tracsWA@health.wa.gov.au](mailto:tracsWA@health.wa.gov.au) to discuss options to access our training.

The aim of the Learning Program is to improve patient outcomes in Subacute Care (SAC) through the delivery of evidence based, coordinated care by embedding a culture of clinical excellence within SAC services and developing workforce skills and knowledge.

Modules delivered in this session:

- Principles of Rehabilitation
- Person Centred Care
- Evidence Based Practice
- Goal Setting

TRACS WA may film/record/photograph this event for educational and promotional purposes. Please advise TRACS WA if you do not wish for your image and voice to be used in this way.
