

HAEMODIALYSIS

Painting by Sarah Brown, *Tjiluru Tjiluru Wiya*, 2007

IMPORTANT MESSAGES:

1. You need to talk about the right treatment for you
2. Haemodialysis treatment is three times a week for ever
3. Most people have to move to a town to do haemodialysis
4. You need a fistula for haemodialysis
5. Your life will change a lot
6. Haemodialysis does not fix kidneys
7. The medical team, social workers and Aboriginal Liaison Officers can help you sort things out before you start haemodialysis

TOPICS:

- Picking the right treatment
- What is haemodialysis
- Access for haemodialysis
- Changing your home; changing your life
- Getting help
- Where patients have haemodialysis
- When patients have haemodialysis

Haemodialysis machines

People having haemodialysis

Getting a fistula

Haemodialysis through a fistula

Setting up the haemodialysis machine

Connecting to the haemodialysis machine through a fistula

Haemodialysis machine cleans your blood

Cleaning the haemodialysis machine after dialysis

Three times every week
