

TREATMENT OPTIONS & PATHWAYS

IMPORTANT MESSAGES:

1. Learn about your options and pathways
2. Talk with your family
3. Talk with your health workers
4. Make an Advanced Care Directive

TOPICS:

- Options and pathways
- Dialysis
- Haemodialysis
- Peritoneal Dialysis
- Kidney Transplant
- Palliative Care
- Advanced Care Directive

Many options and pathways

Talk with family

Talk with health workers

Live well and make good choices

be active

eat well

visit health clinic

don't smoke

don't drink much alcohol

drink water

have medications

keep clean

Dialysis

- Haemodialysis

- Peritoneal dialysis - CAPD

- Peritoneal dialysis - APD

Dialysis

- a treatment for sick kidneys
- cleans your blood
- helps you to live longer
- does not fix your kidneys

Haemodialysis

Haemodialysis cleans your blood through a filter on a machine

Haemodialysis

You may need to live in town

Haemodialysis

Home haemodialysis

Learn to do dialysis so you can live in your community

Peritoneal dialysis

Peritoneal dialysis cleans your blood through fluid in your peritoneal cavity

Peritoneal dialysis

You need to live in town while you learn

After you learn you can do dialysis from home

Kidney transplant

If you've been doing dialysis for some time you may be able to get a kidney transplant

Kidney transplant

Many medical tests for kidney transplant waiting list

No dialysis - palliative care

Finishing up

- At a hospice

- At a hospital

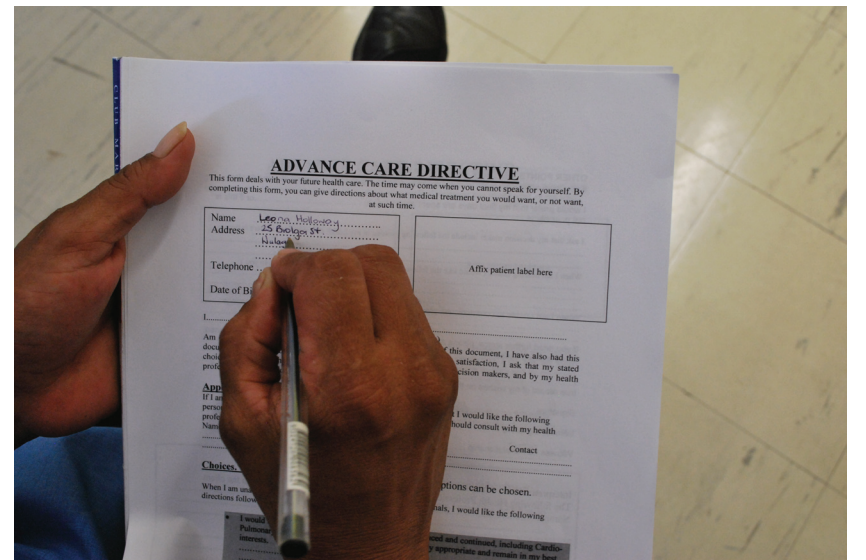

- At home

Advanced care directive

Talk with family and health workers

WORDS TO UNDERSTAND:

- treatment
