

Amphetamine treatment by method of use—AODTS NMDS 2012–13

The number of treatment episodes reported through the AODTS NMDS for Aboriginal and Torres Strait Islander people does not represent all alcohol and other drug treatments provided to Indigenous people in Australia. Data for the majority of Government-funded Aboriginal and Torres Strait Islander substance use-specific services are available from the Online Services Report (OSR) data collection. In 2012–13, 27 out of the 63 Australian Government-funded substance use-specific services reporting in the OSR also reported to the AODTS NMDS.

All clients
