(a) Totals may not add as a result of rounding.

(b) Estimated Resident Population (ERP) data for 2012 to 2016 are final, based on the *2016 Census of Population and Housing*. Estimates for September quarter 2016 onwards are also *2016 Census of Population and Housing*, but are preliminary.

(c) ERP data for 2016 onwards differ to earlier years as they are based on the 2016 Census and includes Norfolk Island in the Australian total (in addition to the other territories)

(d) Australian total includes other territories, comprising Jervis Bay Territory, Christmas Island and the Cocos (Keeling) Islands.

(e) Average annual growth rate (AAGR) over 4 years. For 30 June estimates this is the AAGR for the period June 2013–2017. See chapter 2, Statistical concepts used in the Report, for details of the estimation method.

(b) Estimated Resident Population (ERP) data for 2011 to 2015 are final, based on the *2016 Census of Population and Housing*. Estimates for September quarter 2016 onwards are also *2016 Census of Population and Housing*, but are preliminary.

(c) ERP data for 2016 onwards differ to earlier years as they are based on the 2016 Census and includes Norfolk Island in the Australian total (in addition to the other territories)

(d) Australian total includes other territories, comprising Jervis Bay Territory, Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.

(e) Average annual growth rate (AAGR) over 4 years. For 31 December estimates this is the AAGR for the period December 2013–2017. See chapter 2, Statistical concepts used in the Report, for details of the estimation method.

(a) Estimated Resident Population (ERP) data of Remoteness Areas of Australia for 30 June of each year from 2006 to 2015 are based to the 2011 edition of the Australian Statistical Geography Standard (ASGS). Data from 2016 onwards are based on the 2016 edition of the ASGS.

(b) Population data in this table have been revised from previous Report editions. Estimated Resident Population (ERP) data for 2012 to 2016 are final, based on the *2016 Census of Population and Housing*. Population data for 2017 onwards are projections.

(c) There are no very remote areas in Victoria; no major cities in Tasmania; no outer regional or remote areas in the ACT; and no inner regional or major cities in the NT (*Australian Statistical Geography Standard 2016 [ASGS 2016]*).

(d) Includes Other Territories.

(a) Data are sourced from table 36, Expenditure on Gross Domestic Product (GDP), Chain volume measures and current prices, Annual (Series ID: A2304687R) (ABS 2018). See Chapter 2, Statistical concepts used in the Report, for information on how these gross domestic product deflators were calculated using data from that source.

(b) Estimates used to calculate the GGFCE Chain price indexes are subject to annual re-referencing by the Australian Bureau of Statistics (ABS) and also reflect any revisions inherent in source data which are aggregated up to the GGFCE level. These processes can cause volatility in deflator values from year to year. In addition to changes caused by re-referencing and source data revisions, starting from the 2013-14 deflator, the deflator in this table will differ in future reports due to the introduction by the ABS of updated supply-use benchmarks, which will be backcast, causing revisions throughout the time series.

(c) To convert nominal dollars to real dollars, divide the amount in nominal dollars by the GGFCE Chain price indexes for the applicable financial year and multiply by 100. For example: to convert 2007-08 dollars to 2017-18 dollars, divide by 79.2 and multiply by 100; to convert 2010-11 dollars to 2015-16 dollars, divide by 91.7 and multiply by 100. For further information, see chapter 2, Statistical context, table 2.1.

Rate ratio (d)	12.5	9.3	9.9	18.9	13.9	3.4	9.8	11.6	12.7

(a) Rates are based on the indirect standardisation method, applying age-group imprisonment rates derived from Prison Census data.

(b) Rates are based on the daily average prisoner, periodic detainee or offender populations supplied by states and territories, calculated against adult population figures at December 2007 for people aged 17 years or over for Queensland and for people aged 18 or over for all other jurisdictions, reflecting the age at which people are remanded or sentenced to adult custody. (Source: ABS National Centre for Crime and Justice Statistics).

(c) NSW figures exclude ACT prisoners held in NSW prisons. ACT data are presented as total prisoners.

(d) The rate ratio is calculated by dividing the Aboriginal and Torres Strait Islander Australians age standardised rate by the non-Indigenous age standardised rate.
