

My name is Harold Torrens aka Bucky, and I'm from Casino.

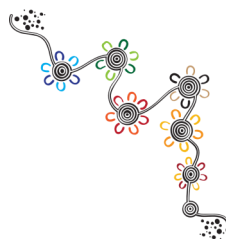

I had my 1st smoke when I was 12 years old. I thought it made me look cool and I thought I was grown.

I have been smoke free for 3 1/2 years.

My message to anyone that is on the Juhms is that smoking can cause diseases such as cancer. If your jarjums also have health problems like asthma and shortness of breath it will not help them either.
