

My name is Earl Bostick. I live in South Lismore, NSW and I'm a Bundjalung man.

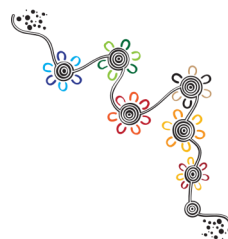

I had my first cigarette when I was about 13/14 because my friends were smoking and I wanted to be like them.

I quit smoking 4/5 years ago because I was told I had early Emphysema.

Quitting smoking is the best thing I have ever done and I don't know why I ever started. I also see myself as a role model to younger people and I don't want them to think smoking is normal.
