ABORIGINAL LAND RIGHTS (NORTHERN TERRITORY) ACT 1976  
**REPORT OF THE ABORIGINAL LAND COMMISSIONER FOR  
THE YEAR ENDED  
30 JUNE 2020**

**ANNUAL REPORT**

1. This report is furnished to the Minister for Indigenous Australians (the Minister) pursuant to s 61(1) of the *Aboriginal Land Rights (Northern Territory) Act 1976* (the Act) which provides that each Aboriginal Land Commissioner shall, as soon as practicable after 30 June in each year, prepare and furnish to the Minister a report of his or her operations during the year that ended on that date.

**THE ABORIGINAL LAND COMMISSIONER**

2. During the year under review, the office of Aboriginal Land Commissioner was held by the Hon John Mansfield AM QC on a part-time basis. The Hon John Mansfield AM QC was originally appointed under s 52(1) of the Act on a part-time basis for the period 23 November 2011 – 30 June 2013. He was subsequently reappointed for a further term, on a part-time basis, for the period 1 July 2013 – 30 June 2016. On 5 May 2016, the Governor-General of the Commonwealth of Australia re-appointed the Hon John Mansfield AM QC as Aboriginal Land Commissioner, on a part-time basis, for the period 1 July 2016 – 30 June 2019. On 10 July 2019, the Governor-General re-appointed the Hon John Mansfield AM QC as Aboriginal Land Commissioner, on a part-time basis, for a further two years to 9 July 2021.

**FUNCTIONS AND POWERS OF THE ABORIGINAL LAND COMMISSIONER**

3. The Aboriginal Land Commissioner is a statutory officer of the Commonwealth appointed to perform functions outlined in s 50 of the Act. The Aboriginal Land Commissioner's functions include undertaking inquiries into traditional land claims in the Northern Territory of Australia. Related reports, containing findings and recommendations, are provided to the Commonwealth Minister responsible for the administration of the Act and the Administrator of the Northern Territory. The responsible Commonwealth Minister may also request that the Commissioner provide advice on any other matter relevant to the operation of the Act.

4. The major functions of the Commissioner are set out in s 50(1) of the Act, which can be viewed at:  
<https://www.legislation.gov.au/Details/C2020C00347>

## **ADMINISTRATIVE ARRANGEMENTS**

5. During the year under review, the Office of the Aboriginal Land Commissioner operated from Jacana House, 3941 Woods Street, Darwin, in premises occupied by the National Indigenous Australians Agency (NIAA).
6. The terms and conditions of the Commissioner's appointment are determined by the Governor-General.
7. During the reporting period, administrative arrangements for the Commissioner were provided by NIAA.
8. The Office of the Aboriginal Land Commissioner can be contacted by email at [AboriginalLandCommissioner@official.niaa.gov.au](mailto:AboriginalLandCommissioner@official.niaa.gov.au) and by phone on (08) 7972 4124. The Commissioner's website is accessible at <https://www.niaa.gov.au/indigenous-affairs/land-and-housing/aboriginal-land-commissioner>

## **THE LAND CLAIM PROCESS**

9. The Act commenced on 26 January 1977. A total of 249 land claim applications have since been made. As a result of amendments to the Act made in 1987 and 2006 (notably s 50(2A) and s 67A(6)(a)) no new application has been made since 4 June 1997.
10. The tables in Appendix 1 (which are described in detail later in the report) disclose that of the 249 applications lodged:
  - a. 84 have been the subject of inquiries and reports;
  - b. 6 are currently the subject of incomplete inquiries;
  - c. 5 relate only to land which comprises the beds and banks of rivers and/or the inter-tidal zone (ITZ), are not currently the subject of an inquiry, and are susceptible to being finally disposed of in the event that regulations are made pursuant to s 67A(12) of the Act;
  - d. 148 have been disposed of either by way of withdrawal or some other process not involving an inquiry; and
  - e. 6 are currently the subject of settlement negotiations which may result in the applications being disposed of without an inquiry.

11. The Commissioner, together with key parties, made progress towards finalising the unresolved applications in 10(b) and 10(e) (either by inquiry and report by the Commissioner, or by agreement and a request for scheduling).
12. Application No 130 in category 10(b) was substantially progressed through settlement negotiations during the reporting period, and the inquiry has not, therefore, been progressed. The Central Land Council wrote to the Commissioner in the reporting period withdrawing the part of the application that is over the Canteen Creek Community. The claim over that area is taken to be finally disposed of. The remainder of the application is the subject of a request to the Minister to add to Schedule 1 of the Act.
13. During the reporting period the Northern Land Council wrote to the Commissioner withdrawing application No 74 and two land parcels in respect of application No 179 (previously in category 10(e)). The claims over these areas are taken to be finally disposed of. The Commonwealth Government has made legislative amendments to add land relating to both applications to Schedule 1 of the Act in the previous reporting period.
14. Key parties progressed settlement negotiations but did not reach agreements in respect of the 6 remaining applications in 10(e) during the reporting period. In the event that negotiations towards settlement do not lead to agreement within the times currently specified, the Commissioner may take steps to list these unresolved claims for hearing.
15. The Commissioner received correspondence from key parties during the reporting period regarding the Cobourg Peninsula Land Claim No 6 in 10(e). The correspondence expressed an agreed view that the land grant to the traditional owners under the *Cobourg Peninsula Aboriginal Land Sanctuary and Marine Park Act 1996* (formally the *Cobourg Peninsula Aboriginal Land and Sanctuary Act 1981*) is not a grant that impedes the process of conduct of the claim pursuant to s 50(2C) of the Act.
16. On 16 December 2019 the Commissioner issued notices to the Northern Land Council under s 67A(7) of the Act, requesting information in respect of the 5 claims in 10(c) to be provided by 17 June 2020, for the purpose of conducting inquiries. On 16 June 2020 the Northern Land Council requested an extension to providing the requested information in respect of claim Nos. 172, 183, 235 and 237, to 17 December 2020. On 18 June 2020 the Northern Land Council requested an extension in respect of claim No. 240, to 17 June 2021. The extensions were primarily sought due to limitations on interstate and remote travel arising from the COVID-19 pandemic and the resulting inability of the Northern Land Council to consult with claimants. The Commissioner agreed to an extension to 16 December 2020 for all 5 claims.

## **LAND CLAIM APPLICATION HEARINGS**

17. During the year under review, the Northern Land Council proposed that the Commissioner undertake an inquiry in relation to a portion of the Cobourg Peninsula Land Claim, in category 10(e) above.
18. The Commissioner did not commence any new inquiries during the reporting period. Following discussion with key parties, the Commissioner indicated his intention to commence an inquiry in relation to a portion of Cobourg Peninsula Land Claim No 6.
19. The inquiry into Gregory NP / Victoria River Region Land Claim No 167 and Legune Area Land Claim No 188 was completed in the previous reporting period. The Commissioner's report on those claims will be delivered to the Minister in the next reporting period.
20. Traditional ownership evidence in the Fitzmaurice River Region Land Claim No 189 was completed during the reporting period. The Commissioner's report is expected to be delivered to the Minister in the next reporting period.
21. Final submissions in the Woolner / Mary River Region Land Claim No 192 were completed in the reporting period. A jurisdictional matter arose during the reporting period regarding the availability of certain land parcels for claim. The inquiry is expected to be completed in the next reporting period.
22. Traditional ownership evidence in the Peron Islands Area Land Claim No 190 was expected to be completed in the reporting period. However, on-country hearings were vacated initially due the claim area being inaccessible following a late wet season, and later due to interstate and remote travel restrictions imposed in response to the COVID-19 pandemic. Traditional ownership evidence is expected to be completed in the next reporting period.

## **DETAILS OF LAND CLAIM APPLICATIONS**

23. Appendix 1 to this report contains details of all applications that have been made pursuant to s 50(1)(a) of the Act. Part I of the appendix lists the applications in chronological order whereas Part II provides an alphabetical list. The tables which follow Part I show the current status of each application.
24. Table 1 lists the reports that have been submitted pursuant to s 50(1)(a) (ii). Eighty-four applications have been the subject of completed inquiries and reports. In one case, Application No 111 (Alligator Rivers Area III), the area known as Goodparla was not dealt with and accordingly that application also appears in Table 3.

25. Table 2 deals with applications which have been disposed of without an inquiry, to the extent that the Commissioner has no further function to perform under s 50(1) of the Act. In some cases the claimed land does not fit the description in s 50(1)(a) and in others the application duplicates a claim in another application. Claims to the seabed below the low water mark are included on the basis that such land is not “land in the Northern Territory”.
26. In cases where claimed land has been added to Schedule 1 of the Act, the number and date of the amending Act is shown.
27. In a number of cases applications have been withdrawn in order to facilitate the granting of title pursuant to Northern Territory legislation. Where an application is taken to be finally disposed of by operation of a provision of s 67A, the relevant subsection number is shown.
28. Table 3 has been divided into four sub-categories in order to reflect the current status of each application which is still within the jurisdiction of the Commissioner. During the year, the parties to the applications listed in Table 3 have been required to report on any progress and reasons for apparent delay in the completion of those applications. It is anticipated that there will be progress in finalising some of those claims in the next financial year.

## **EXPENDITURE STATEMENT**

29. The expenditure of the Office of the Aboriginal Land Commissioner is included in the financial statements forming part of the NIAA Annual Report submitted under s 63 of the *Public Service Act 1999* and s 46 of the *Public Governance, Performance and Accountability Act 2013*, and is subject to scrutiny through the Senate Estimates Committee process.
30. The statement appearing in Appendix 2 is based upon information provided by NIAA and has not been verified by the Commissioner.

Note 1: Report No 1 (Borrooloola) includes a recommendation which encompasses all of the land claimed in Application No 72 (McArthur River).

Note 2: On 24 December 2018 the Commissioner provided to the Minister a Report on a review of detriment issues relevant to 16 land claims previously recommended for grant but not yet finalised, pursuant to s50(1)(d) of the Act. The Detriment Review addressed land claims the subject of Report Nos 9, 29 and 61-68.

Note 3: Report No 16 (Kenbi (Cox Peninsula)) contains seven decisions on procedural and jurisdictional issues arising in Application No 37 (Kenbi (Cox Peninsula)) between 1979 and 1982.

Note 4: Applications No 11 (Douglas (Wagaman)) and No 12 (Umbrawarra Gorge-Jindare (Wagaman)) were amalgamated with Application No 32 (Upper Daly) and reported on in Report No 37 under the name of Upper Daly, which was furnished in 3 volumes published on the respective dates indicated.

Note 5: Application No 18 (Dum-in-Mirrie Island) was amalgamated with Application No 37 (Kenbi (Cox Peninsula)). Report No 40 (Kenbi (Cox Peninsula)) was set aside by the Federal Court of Australia (See Northern Land Council v Aboriginal Land Commissioner (1992) 105 ALR 539). The Application has since been the subject of Report No 59 (Kenbi (Cox Peninsula)).

- Note 6: Application No 111 is a claim to two adjacent former pastoral properties known as Gimbat and Goodparla. The inquiry in relation to Goodparla was adjourned for hearing at a later date. In Report No 48 (Jawoyn (Gimbat Area), Alligator Rivers Area III (Gimbat Resumption-Waterfall Creek) (No 2) Repeat) the part of the claim in Application No 111 dealt with is described as the Jawoyn (Gimbat Area) Land Claim.
- Note 7: The land recommended for grant in Report No 49 includes the whole of the land claimed in Applications No 34 (Borrooloola No 3) and No 117 (South West Island).

Note 14: The parties have advised that Application No 127 (Kenbi (Cox Peninsula – Section 12)) will be withdrawn when agreed actions associated with the resolution of Application No 37 (Kenbi (Cox Peninsula)) have been finalised.

Note15: Application No 128 was the subject of a settlement agreement in 1999 and most of the relevant land was added to Schedule 1 of the Act by the *Aboriginal Land Rights Amendment Act 2002*. However, one parcel of land subject to claim (Umbrawarra Gorge Nature Park, comprising Northern Territory Portion 1589) was not included. Application No 128, insofar as it relates to Umbrawarra Gorge Nature Park, is the subject of current settlement negotiations. Previous Annual Reports have erroneously recorded Application No 128 as having been wholly disposed of by scheduling.

Note 16: The land claim application was received on 31 March 1978. Before an inquiry was commenced, the parties agreed to a settlement which was embodied in a Northern Territory statute, the *Cobourg Peninsula Aboriginal Land and Sanctuary Act 1981*, pursuant to which the claimed land was vested in perpetuity in a land trust established under Northern Territory law. On 4 January 1982 the NLC wrote to the then Commissioner indicating that subject to compliance with certain provisions of the abovementioned legislation it was expected the claim would be withdrawn in the near future. Although no formal withdrawal has ever been received the claim was for practical purposes treated as disposed of until recent years. The NLC, the claimants and the Northern Territory Government have now been in negotiations for a number of years to resolve outstanding issues to progress the land claim.

Until recently, the Commissioner's attitude has been that as the land is vested in a body which already holds the land on behalf of Aboriginals he is constrained from exercising any function under s 50(1) of the Act until the consent of the land owner (as required by s 50(2C)) is received. However, correspondence from key parties during the reporting period supported the view that the grant of land under the *Cobourg Peninsula Aboriginal Land and Sanctuary Act 1981* was not a grant that impeded the functions of the Commissioner in conducting an inquiry. In response to correspondence from parties, the Commissioner has indicated his intention to commence an inquiry which is likely to be limited to a portion of the land claim area in relation to which there is a dispute about traditional ownership.

Note 17: The claimed land includes "All that piece of land in the Northern Territory being Northern Territory Portion 4303", which includes a narrow strip of Crown land (usually referred to as an Esplanade) between the top of the river bank and the boundary of adjacent alienated land.
