Western Australian vaping laws

Each state and territory in Australia has their own laws around e-cigarette use (vaping). Western Australia (WA) is one of the strictest in the country.

Here are some WA laws around e-cigarette use:

- The use of e-cigarettes with e-liquid containing nicotine is legal.
- The sale of e-cigarettes or e-liquids containing nicotine is illegal.
- Promotional advertising of e-cigarettes in retail stores is illegal.
- E-cigarettes with or without nicotine cannot be sold in WA.

For more information about e-cigarettes and the risks of vaping please call
Wheatbelt Aboriginal Health Service on
(08) 9690 2888 and talk with the Tackling Indigenous Smoking team.
