Understanding the Impact of Colonisation

It is important that all health and wellbeing workers understand the ongoing impacts of colonisation and the former policies of segregation, assimilation and forced removal of children from families when working with Aboriginal and Torres Strait Islander peoples.

Intergenerational or transgenerational trauma describes how the impact of traumatic events experienced by ancestors is often carried by subsequent generations.

Racism is one of the enduring consequences of colonisation. It can contribute or add to current experiences of trauma. Racism may be individual but can also be systemic.

Many formal mental health diagnoses do not reflect or name these impacts that are often underlying or contributing causes to many conditions.

WellMob features many online resources that enhance awareness and understanding and of transgenerational trauma.

The resource sheet on Social and Emotional Wellbeing (SEWB) will add to the understanding of the links between the impact of colonisation, the social and historical determinants of health, and social and emotional wellbeing.

Understanding Colonisation impacts

Websites

SHARE OUR PRIDE

This interactive website takes users through a journey of five learning chapters on culture, myths/ stereotypes and the impact of colonisation to the present day.

Videos

JOURNEY OF HEALTH & WELL BEING

Shows the impact of colonisation on Indigenous people's health and wellbeing.

We recommend providing these crisis numbers

13YARN: 13 92 76

Kids Help Line: 1800 55 1800

Suicide Call Back Service: 1300 659 467

Lifeline: 13 11 14

Beyond Blue: 1300 224 636

WHAT'S UP WITH MY MOB? UNDERSTANDING AND HEALING ABORIGINAL TRANSGENERATIONAL TRAUMA

Interviews with workers and community members about transgenerational trauma since colonisation and how the healing can begin.

Videos

ONE PLUS ONE - THE ELDERS
