

CLIMATE JUSTICE & DISASTER RESILIENCE

WORKSHOP SERIES

for WA community services

This two-part workshop series aims to support community service organisations across Western Australia understand, prepare & plan for the social, health & community impacts of climate change & disasters.

Who it's for: any staff, volunteers, managers or committee members of community service organisations in WA. No prior knowledge or experience needed. Works best to attend with others from your organisation.

What to Expect:

- Collectively map the community, health & social justice impacts.
- Hear from Aboriginal leaders, people with Lived Experience.
- Learn more about what climate justice is about & how community service organisations can respond.
- Tour the online Climate Justice & Disaster Resilience Toolkit.
- Identify actions you can take & who else to involve.
- Find out about co-hosting a workshop in your region or org & funded partnership opportunities of up to \$50,000
