

Caring Conversations: Understanding Palliative Care.

Let's Have a Yarn About Palliative Care

Come along for a relaxed morning yarn about Palliative Care —

- What it means.
- When might you need it.
- and the kind of help and support that's out there.

Our local Palliative Care Nurse, and Aboriginal Health worker, will be there to have a chat, answer questions, and share information about the care and services available.

 Morning tea provided
