

GUUNU-MAANA (HEAL) YARNING SESSIONS

Guunu-maana (Heal) Aboriginal and Torres Strait Health Program at The George Institute is an Aboriginal and Torres Strait Islander-led team working to improve health outcomes for Aboriginal and Torres Strait Islander people and communities through culturally grounded, strength-based approaches. We are evaluating the Healthy North Coast PHN former Health Connect Line (now the Health Direct Line) and invite Aboriginal and Torres Strait Islander **community members*** to share their experiences if they have used [the former Health Connect Line](#) to seek medical assistance.
